

## Using Snippets with your Shuup Marketplace

1. Log into your marketplace as a Staff user.
2. On the backend, navigate to Content>Theme Custom CSS/JS, which will open the Snippets page

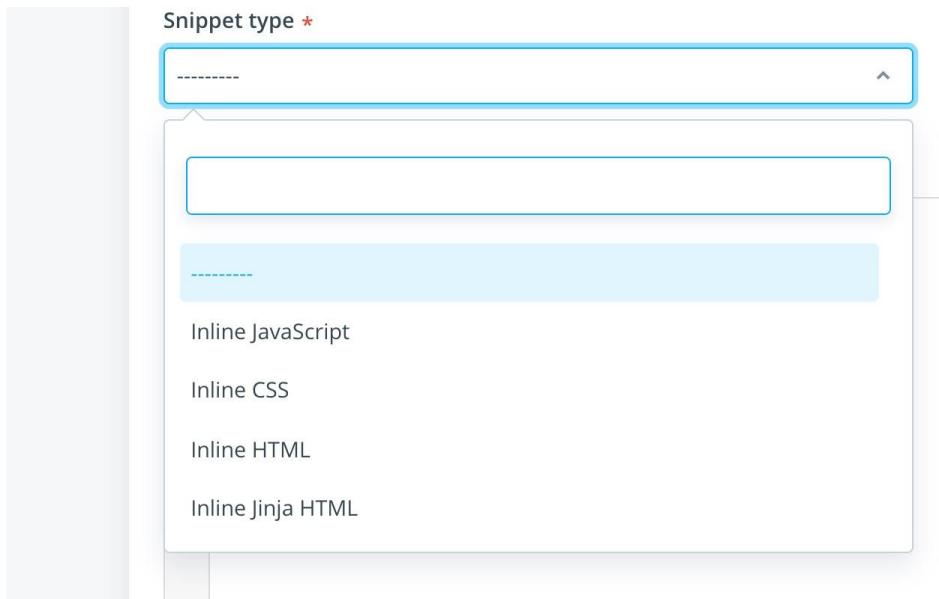

3. Click “+ New Snippet”
4. Name your Snippet, then choose the location in the code you want it placed

5. Select the theme you'd like it applied to, or if you want it on all themes then leave this section blank.

6. Select the Snippet type, which is the language of the code you'd be inserting into this snippet.

The image shows a form field labeled "Snippet type \*". The field is currently empty and has a light blue border. Below the field, a dropdown menu is open, displaying four options: "Inline JavaScript", "Inline CSS", "Inline HTML", and "Inline Jinja HTML". The "Inline CSS" option is highlighted with a light blue background. The dropdown menu is also outlined in light blue.

7. Paste or type your code in the Snippet box

The image shows a form field labeled "Snippet \*". The field is a large text area with a light gray border. The text "1" is visible in the top left corner of the text area, indicating the start of a line of code. The text area is currently empty.

8. Here is an example of a marketplace using Snippets to add CSS code for styling in their theme.
